

20 October 1969

Dear Charlie,

I would like to extend to you congratulations at your being selected as the Chairman for SORS and to offer to you appropriate assistance from the Systems Analysis Group of NIPE Staff.

Many of our studies have direct implications with regard to SORS activities and we would be pleased to discuss them with you. Enclosed for your review and retention is an example of just such an exercise, a 1967 cost effectiveness study composed by this office for the use of SIGINT. Although the study is two-years old, the technical information contained therein is still timely and the techniques presented are the types of things in which this office is currently engaged.

Please feel free to call upon us when you feel that we can be of service to you in your new job with SORS.
